SPECTROLINE®
LEAK DETECTION

GLO SEAL™

Fluorescent Dye with Sealant

- Pinpoint micro-leaks with our exclusive, **OEM-Grade** dye formula
- **2-in-1** premium dye with powerful sealant
- **Concentrated dye** ensures all leaks are found
- Sealant repairs hidden micro-leaks and stops deterioration from the inside
- **Perfect for preventative maintenance** – Scan the system to reveal new leaks
- **Works for you 24/7** – Continuous leak detection and ongoing sealing

2 IN 1 Solution

PREMIUM DYE
+ POWERFUL SEALANT

1. **Find & Fix** Immediate Leaks → 2. Seal **Difficult to Find** Leaks → 3. Leak Detection & Ongoing Sealing

THE **POWER** OF GLO SEAL™

OEM-GRADE
Fluorescent Dye

2-IN-1
Solution

COMPATIBLE
with All Refrigerants

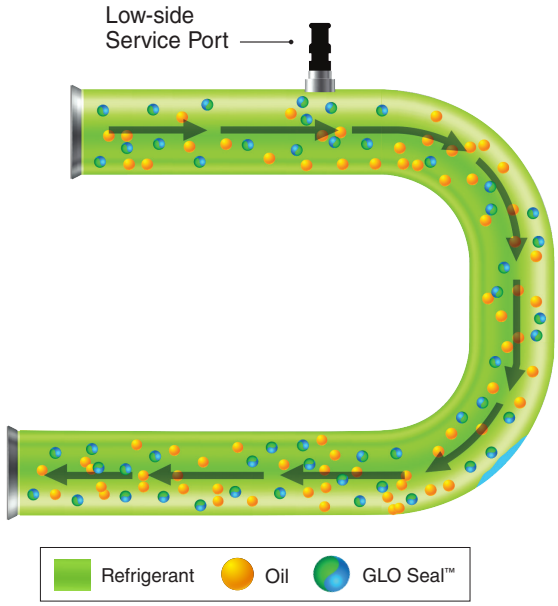
POWERFUL & SAFE
Non-Polymer Sealant,
Not Activated by Air or Moisture

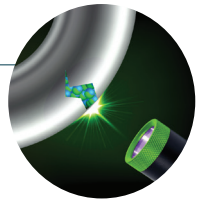
24/7
Performance

MULTIPLE
Delivery Methods

Innovating for Today ✖ Imagining for Tomorrow

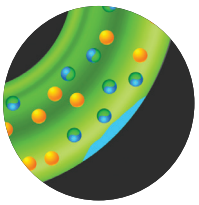
How **GLO Seal™** Works





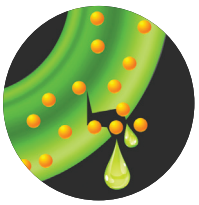
1. Find & Fix Immediate Leaks

Scan the system with a UV Light to find all leak areas glow brightly with GLO Seal™ concentrated dye. Make an external repair to ensure all large leaks are fixed. GLO Seal™ can remain safely in the system.



2. Seal Difficult to Find Leaks

GLO Seal™ pinpoints the location of all internal micro-leaks, forming a repair from the inside.

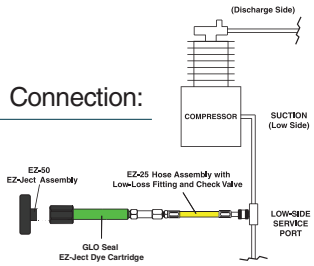


3. 24/7 Leak Detect + Ongoing Sealant

Scan the system periodically to find new leaks. Small, hard-to-find leaks hurt system performance and will eventually lead to total compressor burnout. Have peace of mind as GLO Seal™ works for you 24/7 for continual leak detection and ongoing sealing!

EZ-Ject™ Injection Method

Connection:



GLO Seal™
Fluorescent Dye + Sealant
EZ-Ject™ Dye Injection Kit

SPE-EZDSK-CS

- **SPE-EZDS** (2) 0.5 oz (15 ml) EZ-Ject™ cartridges prefilled with GLO Seal™ Fluorescent Dye + Sealant
- **RP-EZ-50** EZ-Ject™ dye injector assembly
- **RP-EZ-25** 8 in (20 cm) EZ-Ject™ hose assembly
- **RP-AD-410A** R-410A adapter/purge fitting
- Service labels

Treats a **TOTAL** of up to:
- **7 tons** (24.6 kW) of cooling

Reusable Injector Assembly:
Save money on unnecessary hardware with each application!

GLO Seal™
Fluorescent Dye + Sealant
EZ-Ject™ Cartridge

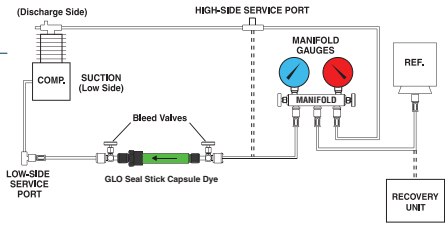
SPE-EZDS-CS

- 0.5 oz (15 ml) EZ-Ject™ cartridge prefilled with GLO Seal™ Fluorescent Dye + Sealant

Treats up to:
- **3.5 tons** (12.3 kW) of cooling

Stick Capsule Injection Method

Connection:



GLO Seal™
Fluorescent Dye + Sealant
Stick Capsule

SPE-GSDS-CS

- 0.5 oz (15 ml) stick capsule prefilled with GLO Seal™ Fluorescent Dye + Sealant
- Requires bleed valves for injection

Treats up to:
- **3.5 tons** (12.3 kW) of cooling

Bleed Valve

RP-BV-50

- Requires two (not included)
